

## SFN<sup>®</sup> – Port needle

non coring needles

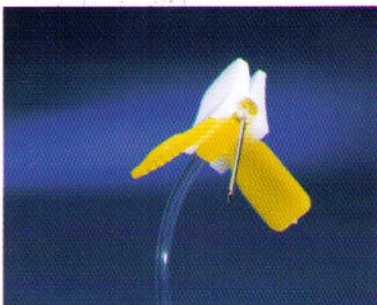

**Special needles with unique bevel for use in implantable ports and pharmaceutical pump-systems**

optimizes safety for the patient

- guaranteed no punch defects when inserted into silicone membrane
- thus preventing leakage and distribution of skin and silicone particles into the bloodstream which may cause complications
- reduced infection rate
- enhances function and durability of these systems
- facilitates handling with the aid of fixation wings
- connective tubing of *polyurethane* equipped with LUER-lock (taxolcompatible, Latex- and PVC-free)

Art. No.	Diameter/mm	Length/mm	Gauge	Extras	Unit
SFN 0720	0,7	20	22		25
SFN 0916	0,9	16	20		25
SFN 0920	0,9	20	20		25
SFN 0925	0,9	25	20		25
SFN 0930	0,9	30	20		25
SFN 1120	1,1	20	19		25
SFN 1125	1,1	25	19		25
